THE GENDER IDEOLOGY ASSAULT ON WOMEN AND THE FAMILY

Thursday, March 13
3:35pm–4:50pm

The Millennium Hilton
One UN Plaza
Landmark Room

Background

What should parents do when their child or adolescent says they were born in the wrong body?

It is a question that parents and policymakers are increasingly facing around the world because of the exponential growth of children and adolescents manifesting gender dysphoria. This phenomenon has been noted in many countries as a major challenge to the protection of the physical and mental health of children.

This event will discuss these recent trends from the perspective of parents, children and adolescents, policy experts, and human rights advocates.
